**INFORMATION AND MANAGEMENT SUPPORT STAFF
WEEKLY REPORT FOR PERIOD ENDING 03 MAY 1988**

1. Progress Report on Tasks Assigned by the DCI/DDCI:
2. Items or Events of Major Interest that have Occurred During the Preceding Week:

A. TECHNICAL GROUP:

- (1) EXDINR (Executive Dining Room System).

STAT [] contacted [] concerning his visit to the Executive Dining Room on Thursday, 28 April 1988. STAT [] (EDR Assistant Manager) has been able to close out the Point-of-Sale (POS) System every day since 7 April and update the General Accounting Package. Member's STAT billing statements will be run on the existing system and the new system in early May. []

- (2) FARS (Federal Automated Requisitioning System).

Over the weekend of 22 to 24 April 1988, 6,440 records and 20,671 messages were retired from the Suspense file to the History file on the Data General (DG) FARS mini-computer. Retirement required the support of two Interdepartmental Support Branch (IDSB/SD/OL) and two Technical Group (TG/IMSS/OL) personnel, using approximately 36 hours of overtime. On Monday, 25 April 1988, the Suspense file was compressed, removing the space left from the retirement of records and resulted in reducing nightly backup time from 26 to 11 minutes for Suspense and from 19 to 8 minutes for Suspense messages. Approximately 5 hours were required for STAT compression. []

B. CLAS:

(1) Release 1.3 Commercial: On Monday, 2 May, the long awaited delivery of Commercial Release 1.3 in final production version was received from Cullinet. The delivery was two weeks later than originally promised, but CLAS/BARS Teams are confident that they can make up the delay. The STAT tape was logged into the [] Center Monday with installation scheduled to start this morning at 0700. Installation will take approximately two weeks, at which time the Supply Team will have access to the production database to begin testing, data conversion, writing desk procedures, loading part numbers, descriptions, cleaning up the ICS database, and preparing for IOC on 1 October 1988. (2) Cullinet Meeting: [REDACTED]

met with Stan Paul, Vice President of the Cullinet Government Systems Division (GSD) on Tuesday to discuss the implications of Cullinet's laying off of 400 plus employees, and terminating several development projects. Stan told us that none of the changes would affect the GSD, in fact, they would be in a growth mode during the next year as a result of their commitment to the Funds Control product. GSD was one of the few profitable Divisions within Cullinet in their, just ended, 1987 Fiscal Year. (U) [REDACTED]

D. INFORMATION MANAGEMENT:

(1) The IMSS/IMO and the OL Wang Administrator met with the Focal Point Officers from the OL divisions and staffs regarding OL's Information Handling Survey recommendations. The recommendations were reviewed with the focal point officers and they were given instructions for submitting their monthly progress reports electronically via the Wang system to IMSS. The monthly progress reports will update a data base under the control of IMSS that is centralized inquiry and reporting. The first progress report is due 27 May and monthly reports were requested until all the recommendations are implemented. (AIUO) [REDACTED]
